NOTICE OF MEETING

Notice is hereby given that a special meeting of Council will be held on Tuesday 19 May 2020 via Electronic Meeting processes, commencing at 11.00am.

Martin McCarthy
CHIEF EXECUTIVE OFFICER
THE BAROSSA COUNCIL

AGENDA

1. THE BAROSSA COUNCIL
   1.1 Welcome by Mayor Lange - meeting declared open
   1.2 Present – Roll call required to include Elected Members, Executive team and Minute Secretary
   1.3 Leave of Absence
   1.4 Apologies for Absence

2. DEBATE AGENDA
   2.1 CHIEF EXECUTIVE OFFICER
      2.1.1 COVID-19 Recovery Plan

3. NEXT MEETING
   3.1 Tuesday 16 June 2020 at 9.00am

4. CLOSURE
14 May 2020

Dear Martin

**Re: Calling of a Special Meeting of Council**

Pursuant to Section 82 of the Local Government Act I hereby request that a special meeting of Council be called for 11.00 am, Tuesday, 19 May 2020.

I request that the agenda shall consist of the following item:

Please prepare the necessary agenda and distribute.

Yours sincerely

Bim Lange OAM
Mayor
2.1 CHIEF EXECUTIVE OFFICER - DEBATE AGENDA

2.1.1 COVID-19 RECOVERY PLAN

B10833-6

PURPOSE

To report tables and seeks approval for the first version of Councils COVID-19 Recovery Plan.

RECOMMENDATION

That Council, having considered the need to undertake further analysis under the Annual Budget and Business Plan policy and waive that requirement as:

1. Expenditure for the current year 2019-20 is immaterial at $15,000;
2. Future expenditure analysis will be assessed as part of the current budget, long term financial plan and business plan work for the 2020-21 financial year;
3. The matters before Council are extra-ordinary and need to advance noting the vast majority of additional spending will be assessed under point 2 above;

authorise the COVID-19 Recovery Plan at the attachment labelled version 1.2 and instruct the Chief Executive Officer:

1. Establish a terms of reference for the working group;
2. Amend the budgets, long term financial plan and business plan to be consistent with the approved recovery plan;
3. Establish policies around the funding programs;
4. Establish targets and deliverables for the community support position and recruit;
5. Establish target and deliverable for external funding support of other organisations and engage with the relevant industry groups; and

bring all relevant documentation including the terms of reference, policy frameworks and other program targets and deliverables back to the June 2020 Council meeting for endorsement.

REPORT

Council are acutely aware of the work undertaken to date by the community and Council in support the State and Commonwealth Government in responding to COVID-19 risk.
With any emergency event there are significant impacts. The next phase is to address the recovery phase. Council and officers have developed a recovery plan noting:

1. This plan will be subject to change as the recovery phase progresses;
2. This plan will support or compliment other industry and government partners to assist the community to address social, economic and the wellbeing of the community;
3. Council has indicated that current levels of service will remain in place at this time and where affordable and grant programs are available accelerate programs and capital expenditure where it can within available resourcing levels.

Should Council adopt this plan there are various next steps to be taken which are:

1. Establish a terms of reference for the working group;
2. Amend the budgets, long term financial plan and business plan;
3. Establish policies around the funding programs;
4. Establish targets and deliverables for the community support position and recruit;
5. Establish target and deliverable for external funding support of other organisations and engage with the relevant industry groups.

It is recommended that Council waive the requirement to undertake further analysis of the proposed funding implications under the Annual Budget and Business Plan policy for the following reasons:

1. Expenditure for the current year 2019-20 is immaterial at $15,000;
2. Future expenditure analysis will be assessed as part of the current budget, long term financial plan and business plan work for the 2020-21 financial year;
3. The matters before Council are extra-ordinary and need to advance noting the vast majority of additional spending will be assessed under point 2 above.

COVID-19 Recovery Plan

COMMUNITY PLAN / CORPORATE PLAN / LEGISLATIVE REQUIREMENTS
Community Plan
- Natural Environment and Built Heritage
- Community and Culture
- Infrastructure
- Health and Wellbeing
- Business and Employment
- How We Work – Good Governance

All strategies
Legislative Requirements
Local Government Act

**FINANCIAL, RESOURCE AND RISK MANAGEMENT CONSIDERATIONS**
These have been outlined in the plan.

**COMMUNITY CONSULTATION**
Community consultation is not required however officers have engaged with industry groups and many other groups as part of its response to COVID-19 and many of the policy responses are derived from these interactions.
COVID-19

Recovery Plan

14 May 2020

Version 1.2

Endorsed by Council

Resolution Number XX of the special Council meeting held 19 May 2020
1.0 Introduction – The Emergency Event

The plan is structured to steer Council in assisting its community to recover from the impacts of COVID-19 and the “Barossa Cluster”.

Where possible Council will partner with Commonwealth, State, regional associations, industry, clubs, groups and other stakeholders to leverage funding outcomes and assist with program implementation where possible.

This plan is for 12 months of activity which by the nature of COVID-19 will likely span over a longer period depending on a raft of factors including:

1. Any future waves and cluster that will require response;
2. Flexibility and the changing need to respond to new opportunities or pressures; and

will depend primarily on the speed at which restrictions are relaxed by public health authorities therefore will no doubt take longer as the triggers for activity cannot be pre-determined.

The plan will be at all times will be subject to review, amendment and updates as new and improved information becomes available, new needs develop or funding opportunities arise.

The plan also outlines longer term strategies for investment and the recovery of Council’s budget and sustainability of operations post COVID-19 recovery process has completed.

1.1 Fundamental Policy Statement

In terms of recovery planning the first policy position of Council is to work with the community to assist in maintaining low numbers of infections and appropriate management of public health responses as a priority. Activities will not commence unless it is safe to do so.
2.0 Framework

The South Australian framework for pandemic management sits within the South Australian legislative systems under the Emergency Management Act and the State Emergency Management Plan with SA Health the responsible authority.

A council is also the local public health authority for its area under the SA Public Health Act 2011. Amongst other things, Councils are to take action to preserve, protect and promote public health, and to identify risks to public health within its area, and to provide, or support the provision of, educational information about public health and to provide or support activities within its area to preserve, protect or promote public health.

All disaster events are assessed under and agreed framework known as NERAG (National Emergency Risk Assessment Guidelines). Utilising the NERAG 2020 Handbook the following provides the basis for recovery prioritisation.

At a local level there is no risk assessment for pandemic, by its nature and definition is not a localised issue. The systems of assessment of risk and impacts is undertaken under five categories under NERAG. This is not meant to replicate a full risk assessment process but rather a high level review to assist in prioritising of recovery.

This recovery plan is an overarching guiding document with specific policy responses relevant for today identified and it’s acknowledged that the plan will need to be flexible and changeable overtime. The plan will need to be read in conjunction with Council budget and business plan and long term financial plan.

2.1 People

The people consequences describe deaths and injuries as a direct result of the emergency event, relative to the population being considered under the established context.

It includes the following types of impacts:

- Health of residents resulting in death, serious illness or injury.
- Sporting, recreational and other events and gatherings resulting in death, serious illness or injury.
- Injury and/or death of vulnerable residents.
- Interruptions to essential services or facilities for vulnerable people causing death or injury.

The current data from the COVID-19 South Australian Government as at 14 May 2020 is:

1. The state has had 439 confirmed cases; 434 have recovered.
2. There have been four deaths in South Australia one has been attributed to a case contracted within The Barossa Council area.

At this time the response from the Commonwealth, State, Local Government sectors and the willingness of the people of The Barossa Council area there has been a significant minimisation of the risk of COVID-19 spread.
In terms of recovery planning the policy position of Council is to work with the community to assist in maintaining low numbers of infections and appropriate management of public health responses including hygienic practices and social distancing.

There are potential downstream public health impacts to consider such as the mental health implications that are predicted to increase as a result of the pandemic and its health and economic impacts such as increased rates of suicide.

2.2 Economy

Economic consequences include financial and economic losses resulting directly from damage due to the emergency event.

It includes the following types of impacts:

- Loss of employment;
- Closure of businesses;
- Declining access to markets;
- Tourism downturn;
- Inability to meet debts and accounts for businesses, community clubs, associations and groups and people;
- Significant impact on industries including wine, food, tourism, creative industries, primary production and other manufacturing or regional industries;
- Negative impact on Brand Barossa.

Clearly these are significant impacts as a result of COVID-19. Whilst data is still to flow through economic indicators identify there is already significant loss of employment, significant stress on businesses of all types, a downturn in tourism and with the Barossa cluster having a detrimental impact to Brand Barossa.

In terms of recovery planning the policy response to the economy is the highest priority.

2.3 Public Administration

Public administration consequences are concerned with the impact of the emergency event on the delivery of core functions of the governing bodies for the community.

To date The Barossa Council has managed the delivery of core services throughout the event through different service delivery models. There is no impact at this time.

In terms of recovery planning the policy response to our public administration will be to return services closed and service delivery models to normal (or in a manner that reflects a considered response to continued restrictions ie “the new normal”) when it is deemed appropriate to do so. Further, Council over the long term will need to assess the budgetary impact of the current relief and any more relief provided to ensure a sustainable financial position.
2.4 Social
Social setting consequences are concerned with the effect on communities from the emergency event, as distinct from the individual impacts assessed in the people criteria.

It includes the following types of impacts:

- Significantly community interaction and wellbeing of the community.
- Significantly increases the risk of isolation, mental and physical health of people and the community generally.
- Puts at risk the community networks, sporting and recreational clubs and groups, heritage, cultural.

In terms of recovery planning the policy response to the social impacts is equally as high a priority as the economic response as they are inextricably linked. During the COVID-19 response phase Council has supported the implementation of the Barossa Cares website and this will be an ongoing vehicle for recovery efforts.

2.5 Environment
Environmental consequences include loss of species and landscapes, and loss of environmental value, as a result of the emergency event.

This category of impact has been assessed as minimal under the current COVID-19 event, with anecdotal evidence around the world stating environmental benefits due to massive economic slowdown. It is however acknowledged that this is likely to only be temporary.

In terms of recovery planning, the policy response to the environment is the lowest priority, however some projects and activities in the environmental portfolio can support other recovery requirements especially economy, social and people.
3.0 Key Partners

The Barossa Council recognises the following key partners it will join with to work on recovery and to ensure there is collaborative approach and no duplication of effort the recovery plan therefore outlined will identify areas where Council will support industry through industry bodies. The key partners are:

Commonwealth Government of Australia

South Australian Governments

Regional Development Australia Barossa Light Gawler and Adelaide Plains

Barossa Grape and Wine Association

Barossa Tourism

Partner Councils – Regional Public Health Planning
4.0 Stakeholders

There are many stakeholders that this plan acknowledges.

The Community of The Barossa Council
Community Clubs
Sporting Clubs
Businesses
Non-for-profit Organisations
Regional/Local Health authorities/agencies Community Networks including associations in townships, arts heritage and culture groups, musical groups
Volunteers
Residents
Visitors
5.0 Policy Basis and Assumptions

There are 5 key policy assumptions made that underlie this recovery plan:

1. Timing of any relaxation of responses from health authorities is unknown and no doubt will be staged over some period. Recovery activities will therefore have some lag effect and will be implemented when they are considered appropriate taking into account the risk to the community generally. Therefore the plan will be subject to variation in timing and priority overtime.

2. The plan will be flexible as recovery processes continue different responses will be required, this is the initial response and in-principle spending.

3. Existing Council levels of service and the mix of services will continue to be provided whilst Council review budgets, long term financial plans and other factors to ensure a sustainable long term financial position of Council.

4. Council continues to commit to The Big Project as currently approved and ongoing capital programs. Through grant programs Council will look to accelerate spending where it can and can be afforded and delivered with the resources available.

5. Council has chosen to respond by stimulating the economy and support the social and community fabric to recover it will therefore need to maintain a sustainable rate revenue based over the long term financial plan period that is consistent with achieving this recovery plan in accordance with part 2 above.

6. The ability to achieve outcomes will be through a collaborative approach with our partners and stakeholders.

7. The management of the cash impacts of the recovery plan will require significant additional borrowings, this will be managed through quarterly reviews of Councils long term financial plan position and long term reform and service adjustments.
6.0 Policy Responses
The Barossa Council policy responses address the areas of impact outlined above in part 2.0 of this plan.

6.1 People
Councils’ policy response below are consistent with the adopted Community Plan as follows:

![Health and Wellbeing]

4.8 Promote a healthy community through a planned approach to public health.

Please note:
Those that are proposed will be dependent on grant criteria.
Possible Grant Programs Awaiting Further Information

State Regional Growth Fund Round 4 – infrastructure projects and local government eligible.

State Regional Growth Fund – Strategic Projects – infrastructure projects and local government eligible.

Community and Jobs Support Fund - further information needed, but would be a prime target for funding some positions to help rebuild the clubs and groups for a few years.
8.0 Governance

The oversight and implementation of this recovery plan will be overseen through various processes:

Barossa Leadership group will be engaged through our collaborative model and partner with Council to ensure coordinated spending which is efficient and utilises the various skills sets. The Barossa Leadership group consists of senior representatives of:

- Regional Development Australia
- Barossa Grape and Wine Association
- Barossa Tourism
- Member for Schubert
- The Barossa Council
- Light Regional Council

Council will establish a working group of the Mayor, Deputy Mayor and the Corporate Management Team to coordinate internally and at appropriate times will seek up to four community representatives to support the recovery plan. The working group will be supported by Communications and Engagement Officers and administrative support were required.
9.0 Summary
The above recovery plan is planned for a twelve month period. It is acknowledged that the plan must be flexible in order to support new opportunities and issues as they arise.

The long term impact on Council's finances will be assessed on a quarterly basis during the recovery period.

The recovery plan will guide the administration of Council in a general policy sense considering the five generic policy statements in each category if impact are:

9.1 Fundamental Policy Statement
In terms of recovery planning the first policy position of Council is to work with the community to assist in maintaining low numbers of infections and appropriate management of public health responses as a priority. Activities will not commence unless it is safe to do so.

9.2 People
In terms of recovery planning the policy position of Council is to work with the community to assist in maintaining low numbers of infections and appropriate management of public health responses including hygienic practices and social distancing.

9.3 Economy
In terms of recovery planning and implementation the policy response to the economy is the highest priority and specific matters outlined in 6.2 of this plan are the immediate priorities for Council.

9.4 Public Administration
In terms of recovery planning, the policy response to our public administration will be to return closed services and service delivery models to normal when it is deemed appropriate to do so. Further, Council over the long term will need to assess the budgetary impact of the current relief and any more relief provided to ensure a sustainable financial position.

9.5 Social
In terms of recovery planning the policy response to the social impacts is equally as high a priority as the economic response and specific matters outlined in 6.2 of this plan are the immediate priorities for Council.

9.6 Environment
In terms of recovery planning, the policy response to the environment is the lowest priority, however some projects and activities in the environmental portfolio can support other recovery requirements especially economy, social and people.
Appendix – Estimated Budget Changes

The following table outlines additional spending to the budgets required to support new policy responses in part 6 of this plan. Those policy responses not listed are either already embedded or proposed to be embedded in the 20/21 and future budgets.
